

## **Contributing to *Engineering & Technology* magazine**

Most of the feature articles in *Engineering & Technology* are the work of the IET's editorial staff or specialist technical journalists. If you are a professional writer with an idea you think would be of interest, please contact the appropriate member of the editorial team. Before pitching, take time to look at a recent issue at [www.theiet.org/engtechmag/](http://www.theiet.org/engtechmag/) to familiarise yourself with the type of content we might consider commissioning.

For general features that are accessible to readers who work in a wide range of disciplines right across the technology sector, contact the features editor at [features.editor@theiet.org](mailto:features.editor@theiet.org).

For articles focusing on a specific area of engineering that are likely to be of interest to a particular section of this audience, use the following contacts. Each of our sector editors commissions for their own section of the magazine and will consider proposals from practising engineers as well as full-time writers.

Communications - [communications.editor@theiet.org](mailto:communications.editor@theiet.org)

Control and automation - [control.editor@theiet.org](mailto:control.editor@theiet.org)

Electronics - [electronics.editor@theiet.org](mailto:electronics.editor@theiet.org)

IT - [it.editor@theiet.org](mailto:it.editor@theiet.org)

Management - [management.editor@theiet.org](mailto:management.editor@theiet.org)

Manufacturing - [manufacturing.editor@theiet.org](mailto:manufacturing.editor@theiet.org)

Power - [power.editor@theiet.org](mailto:power.editor@theiet.org)

Readers are encouraged to contribute to our letters pages. Write to [engtechletters@theiet.org](mailto:engtechletters@theiet.org) or to the Editor, *Engineering & Technology*, Michael Faraday House, Six Hills Way, Stevenage, Herts SG1 2AY, United Kingdom. The editor's decision as to which letters are selected for publication is final, and the IET reserves the right to edit letters and to use submissions in any other format.

If there is a topical theme of broad interest that you believe justifies more extended coverage, *Engineering & Technology* includes various opinion columns that allow space for a named individual to set out an extended argument. Contact the managing editor with proposals for this section of the magazine at [managing.editor@theiet.org](mailto:managing.editor@theiet.org).
