

## **Policy Explanation Notes for Volunteers**

(IT Acceptable Use Policy – Version 1.9)

The IT Acceptable Use Policy outlines IET policy and procedure regarding the acceptable use of equipment and services provided by the IET IT directorate in order for you to be able to carry out your role. The Policy encapsulates the spirit of the law and the IET's values and standards.

The Acceptable Use Policy applies to all employees, volunteers, contractors and temporary staff (where they have been supplied access to IET IT services or systems). For the purposes of this Policy the term "staff" will be used to refer to all persons within scope.

Although you may feel that some sections of this Policy may not apply to you, the Policy has been written to address the wide range of people who undertake activities for or on behalf of the IET.
