The Institution of Engineering and Technology is registered as a Charity in England & Wales (no 211014) and Scotland (no SC038698).

Governance of the Institution

1. The Institution of Engineering and Technology has noted the recommendations of the Report of the Committee on the Financial Aspects of Corporate Governance (The Cadbury Report). This Code of Best Practice applies to listed Companies; however, its principles apply to all organisations with a public interest. The IET operates under its Royal Charter, the Charities Acts and the associated Accountancy Reporting Standards.

2. On behalf of the Board of Trustees, the following Boards and Committees of the IET deal with governance issues:

Audit and Risk Process Committee
Finance and Investment Committee
Remuneration Committee
Nominations and Succession Committee
Disciplinary Board

3. The Board of Trustees considers that the IET has adequate resources to continue in operational existence for the foreseeable future. For this reason, the going concern basis continues to be adopted in preparing the financial statements.

4. The Board of Trustees is responsible for the IET's systems of internal financial control. These can provide only reasonable, but not absolute, assurance against material misstatement or loss. The key features of the controls are:

- communication of ethical values and a controls awareness through written codes of conduct, formal standards of discipline and employee performance appraisal;
- a system of review and monitoring of the key areas of risk; financial systems and their controls are kept under continual review by the relevant professionally qualified staff employed by the IET;
- regular consideration of budgets, management accounts and variations from budget;
- quarterly meetings of the Audit and Risk Process Committee including discussions with the external Auditors with regard to the scope of the audits and the content of their reports to management and management's response.

5. Each Board and Committee operates under specific Terms of Reference and members uphold high standards of personal behaviour, both individually and in their collective responsibility, to ensure good corporate governance of the IET. It is expected that any conflicts of interest, if they arise, are declared.

6. Nothing in the IET's procedures precludes a member from questioning any aspect of the IET's governance, bringing forward any issue for debate, or stating their view in a personal capacity.

Terms of Reference of Boards and Committees

7. The President is ex officio a member of all Boards and Committees.

8. The Bye-laws which concern the Boards and Committees of the IET, read as follows:

79. Except where the Charter or these Bye-laws provide to the contrary, the Board may delegate any of its powers or the implementation of any of its resolutions to any committee, and every such committee shall be accountable to the Board. All delegations under this Bye-law shall be variable or revocable by the Board at any time.

80. The resolution making that delegation shall specify those who shall serve on such committee.
81. The composition of any such committee shall be entirely at the discretion of the Board which may make and vary such regulations and impose such terms and conditions and give such mandates to the committee as it may from time to time think fit.
82. The deliberations of any such committee shall be reported regularly to the Board and any resolution passed or any decision taken by any such committee shall be reported forthwith to the Board.
83. Groupings of members, based on territory, knowledge or special interest may be established or disestablished. These groupings shall be established, constituted or disestablished, and their affairs carried on, in accordance with Regulations to be approved from time to time by the Board who shall have power to vary the same subject always to the provisions of the Charter and Bye-laws.

9. The normal period of service for an elected or appointed member of any Board or Committee is three years. For appointed members, the period of service on a Board or Committee cannot be extended beyond a maximum of six years. It is customary for one third of the members of a Board or Committee to retire each year, to ensure a regular turnover.

10. The Bye-laws which describe the Board of Trustees and the election and appointment of Trustees apply mutadis mutandis to the Boards and Committees. The members of Boards or Committees are members of the IET, unless allowed otherwise by the terms of reference. Employees of the IET may not be members of Boards or Committees, unless allowed otherwise by the terms of reference.

Confidentiality of Board and Committee Papers

11. The Institution of Engineering and Technology (IET) prides itself on being an open and inclusive organisation. It follows that the governance of the IET should be as open as possible, subject to issues of commercial or personal sensitivity. Board and Committee papers are presumed to be open unless classified as confidential in accordance with this policy.

12. Confidentiality may be required to protect individuals or be required to protect information of potential or actual commercial use to competitors, suppliers or customers. Documents may be classified as Open or Private and Confidential.

13. Papers marked Private and Confidential are private to the Board or Committee to whom the paper is addressed and to any higher reporting Board or Committee. For example, papers which are Private and Confidential to the Knowledge Services and Solutions Board may automatically be passed to the Board of Trustees, to which it reports. However, the same paper would not automatically be released to Committees which report to the Knowledge Services and Solutions Board, such as the Communities Resourcing Committee without the specific agreement of the Board. Boards and Committees should therefore consider when it would be helpful to share confidential papers with other parts of the Institution and give specific directions for the release of such papers.

14. Where the following is contained within the document, it should be marked Private and Confidential:

- Personal data: The paper contains personal data relating to an individual. It is important that such information is not disclosed as it may breach Data Protection requirements;

- Staffing matters: Personnel matters, personal information or matters of a management, planning or forecasting nature, relating to staff. These should not be made available outside the Board or Committee as this may breach IET procedures or legislative requirements relating to staff;
- Information relating to negotiations, commercial or otherwise, where disclosure could prejudice the IET's position, or could prejudice future negotiations of a similar nature;
- Information about spending estimates where such information may benefit a supplier, contractor or other organisation to the potential detriment of the IET;
- Details about a complaint concerning an individual or group of individuals, including members, volunteers and staff as this may prejudice any investigation and could also disclose personal data;
- Information which has been supplied in confidence by a third party or would result in such supply as this would breach the trust of the third party;
- Information considered confidential to a third party relationship, or which could be used externally to create legal challenge, reputational risk or commercial advantage;
- It concerns legal advice or Counsel's Opinion, or is otherwise covered by legal professional privilege or concerns active legal proceedings;
- Information which if made available might create a risk of action for libel, slander or contempt;
- Information the disclosure of which would be prejudicial to the engineering profession as a whole;
- It relates to minutes of or the proceedings or business of a committee or other group which has been marked Private and Confidential by that Board or Committee;
- Information which if disclosed may result in premature publicity of courses of action that may not, in the end, be followed;
- Information from a contract which contains a confidentiality clause;
- Any other matter which the Board or Committee considers appropriate in the particular circumstances. The Board or Committee should consider carefully that it is in the interests of the IET to mark a document Private and Confidential under this paragraph as most situations would fall under the paragraphs above.

15. Decisions about the classifications of documents are made by Board and Committee Chairs in consultation with Board and Committee Secretaries. The paper should note the reason why the paper has been marked as Private and Confidential.

16. Papers which are not marked Private and Confidential may be provided to any party on request. Papers marked Private and Confidential may only be released as described in paragraph 13 above or on the express authority of the Board, Committee or Council. Boards, Committees and Council may decide to change the classification of a paper, including changing a paper to an Open classification after it has been considered.
