Creation of The IET

The UK's only multi-disciplinary
professional institution for Engineers
and Technicians

2006

**Merged with
IIE**

About the IET

MULTI-DISCIPLINARY

The UK's only multi-disciplinary institution working across five key sectors:

**168,000
MEMBERS**

The UK's largest professional institution for Engineers and Technicians

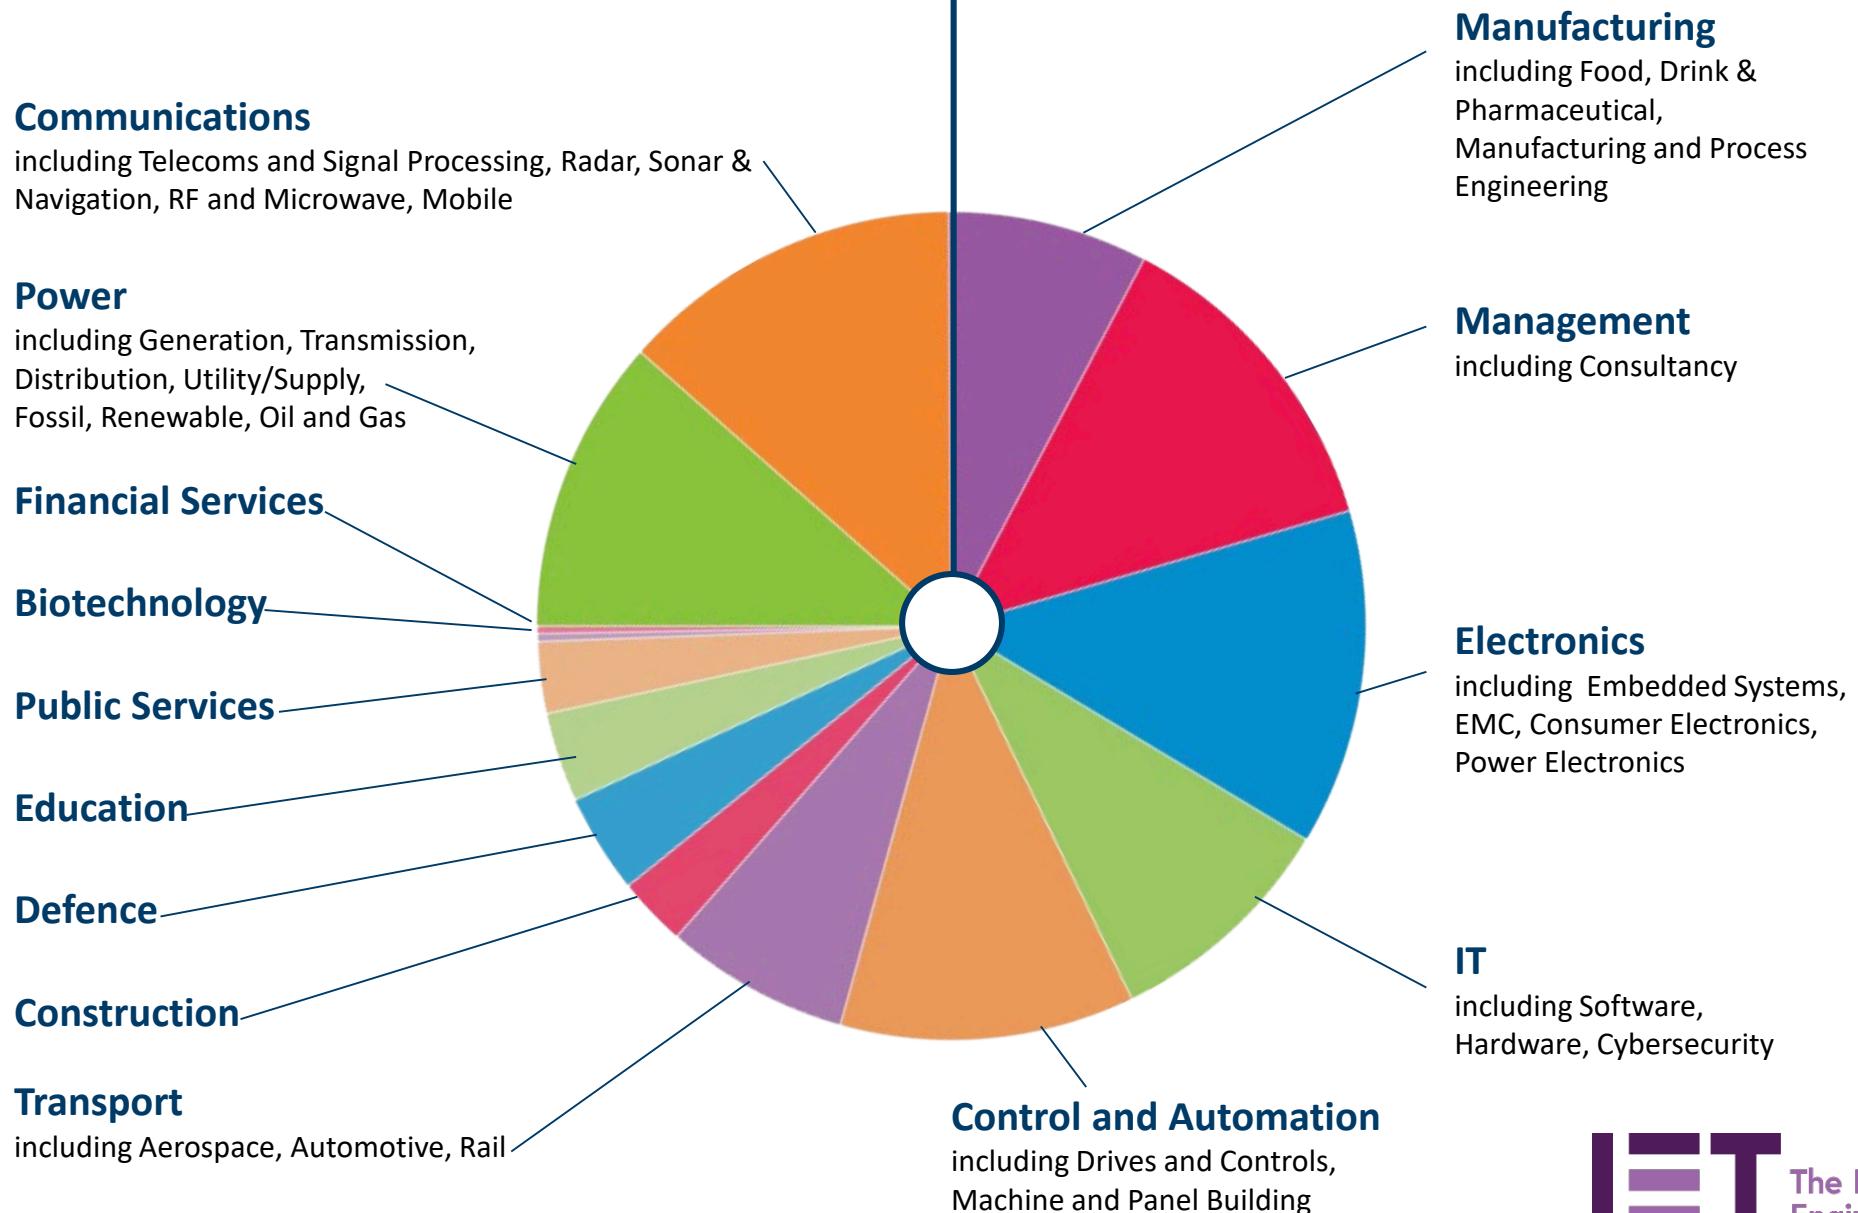

**4,000
VOLUNTEERS**

IET MEMBERS IN 150 COUNTRIES

Membership and Benefits

Library and Knowledge Services

The IET has the worlds largest technical library:

- A physical library at our London HQ
- A virtual library with thousands of online e-books, e-journals, magazines and reports
- The IET's own Digital Library.

Technical
Papers

e-Books

e-journals

Membership and Benefits

The IET Local Networks provide opportunities for like-minded people to network, share ideas and expertise, collaborate, learn and keep abreast of news and views.

Digital

We connect with the relentless pace of change within IT and how digital services are transforming the lives of people across the globe. We focus on opportunities for engineering and technology. Bringing together experts from industry, academia and government, we deliver programmes of activity, inspired by issues of the day from broadcast to networks and beyond.

Allaying health concerns regarding 5G and exposure to radio waves

An IET guide for local planning authorities regarding 5G masts and small cells.

Introducing the IET Digital Panel

IET Digital Lead Ahmed Kotb on the formation and focus of the Institution's newest panel of expert volunteers.

Continuing Professional Development (CPD)

Record all your achievements and build your career – your CPD is your professional portfolio.

What is Continuing Professional Development?

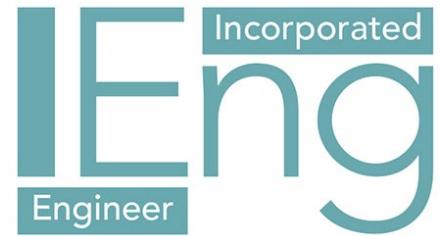

As the name implies, Continuing Professional Development (CPD) is with us throughout our careers, allowing you to stay in touch with developments in engineering.

Getting Started with CPD

CPD is the ongoing process of tracking and documenting the skills, knowledge and experience that you gain both formally and informally as you work.

Professional Registration

The Registrations

- **Develop new** or existing technology
- Problem solve
- Make a key contribution to your business' success, through **innovation**, creativity and change
- Promote advanced designs or design methods
- Develop better production techniques, marketing or construction concepts
- **Pioneer** technology or engineering services and management methods.

- **Maintain and manage** applications of current and developing technology
- Apply **existing and emerging technology** in their work
- Problem solve
- Contribute to continuous improvement in business processes
- **Manage** the planning, budgeting and organisation of tasks, people and resources
- Have involvement in design, development, manufacture, construction and operation.

Professional Registration

The Registrations

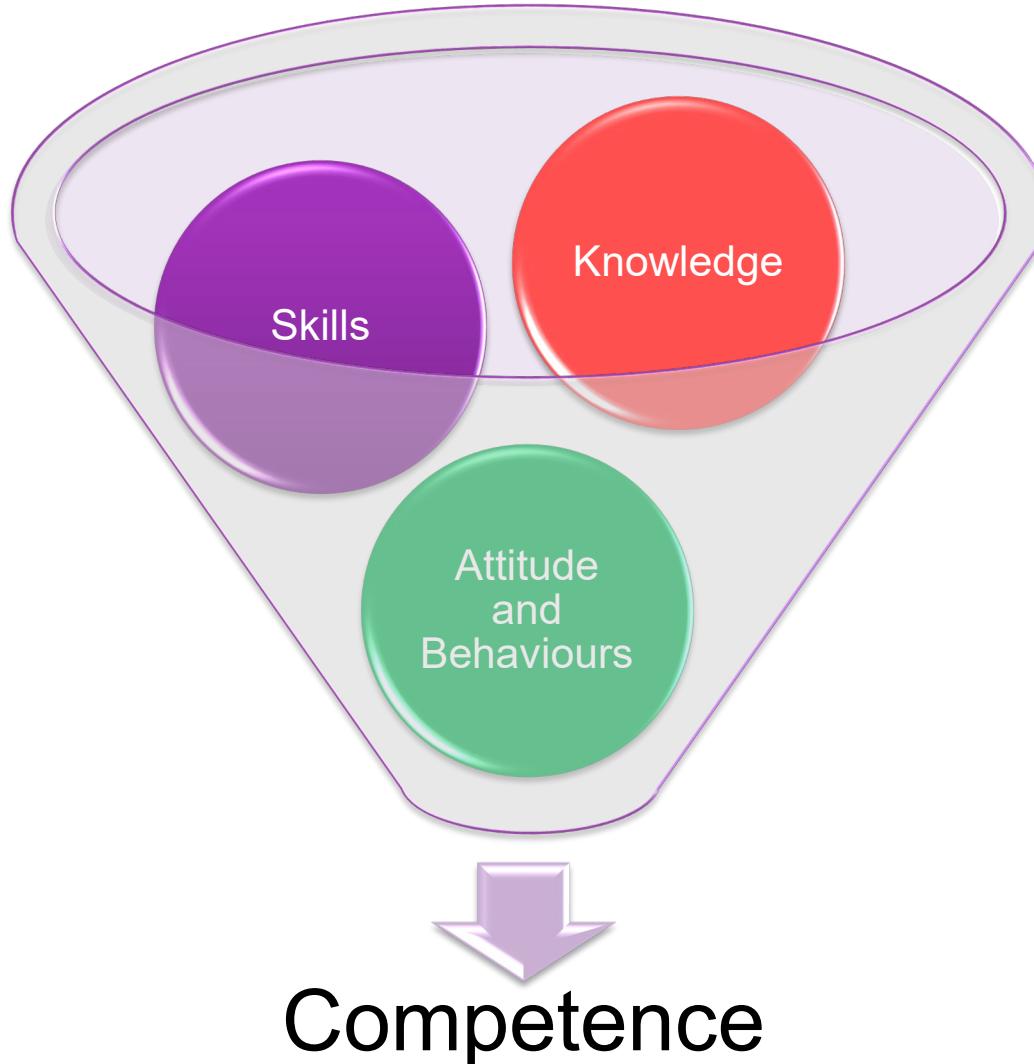

- **Apply proven techniques and procedures** to practical engineering problems
- Hold **supervisory or technical responsibility**
- Contribute to design, development, manufacture, commissioning, decommissioning or operation
- **Maintain** products, equipment, processes or services
- Show a creative approach to your work
- **Apply** safe systems of working.

- **Support or enable** the use of ICT equipment and applications by others
- Select and **use appropriate** ICT resources, techniques, configurations, procedures and methods
- Install, operate, support, or maintain ICT systems
- Protect ICT systems from intrusion, damage or data loss
- Accept or exercise personal responsibility for ICT systems.

Professional Registration

Underpinning Knowledge & Understanding

The benchmarks:

Professional Registration

Myth Busting

1. Age matters IEng/CEng

It doesn't – what matters is that you meet the requirements of your registration category. Managing a budget isn't the only way of showing that you've had financial responsibilities. Experience with your employer's financial accountability for example, acquisitions, contracts, fenders, legal advice, standards, replacement of life-pairs, repairing equipment, even running your own business - counts. You don't need a master's to become a Chartered Engineer (CEng), nor a bachelors degree to become an Incorporated Engineer (IEng). While academic qualifications are giving them enough information, it's possible to apply with vocational route today. As for jargon, it's a mark of your competence, even if they're experts in your field.

2. The longer your application answers, the better (and throw in some jargon too)

3. You don't have to be an academic to become a Chartered Engineer (CEng) or an Incorporated Engineer (IEng)

4. Professional registration is not for academics

Academics who've become registered with us would disagree. They say that registration is recognised by peers, allows them to take on more departmental responsibilities and get help with their professional development. We encourage candidates to get support from experienced mentors, who can help them with their development. We offer a mentoring scheme for candidates who want to develop competences, and Professional Registrars expect you to provide the most relevant information when completing application forms. Another route to professional registration is a registered apprenticeship, which you can also complete on previous roles, placements and voluntary work. Again, it's all about whether you meet the relevant competences.

The Institution of
Engineering and Technology

Professional Registration

The Process

Application & Support

Career Manager

Manage your professional development and apply for professional registration using the IET's online skills development and recording tool, **Career Manager**.

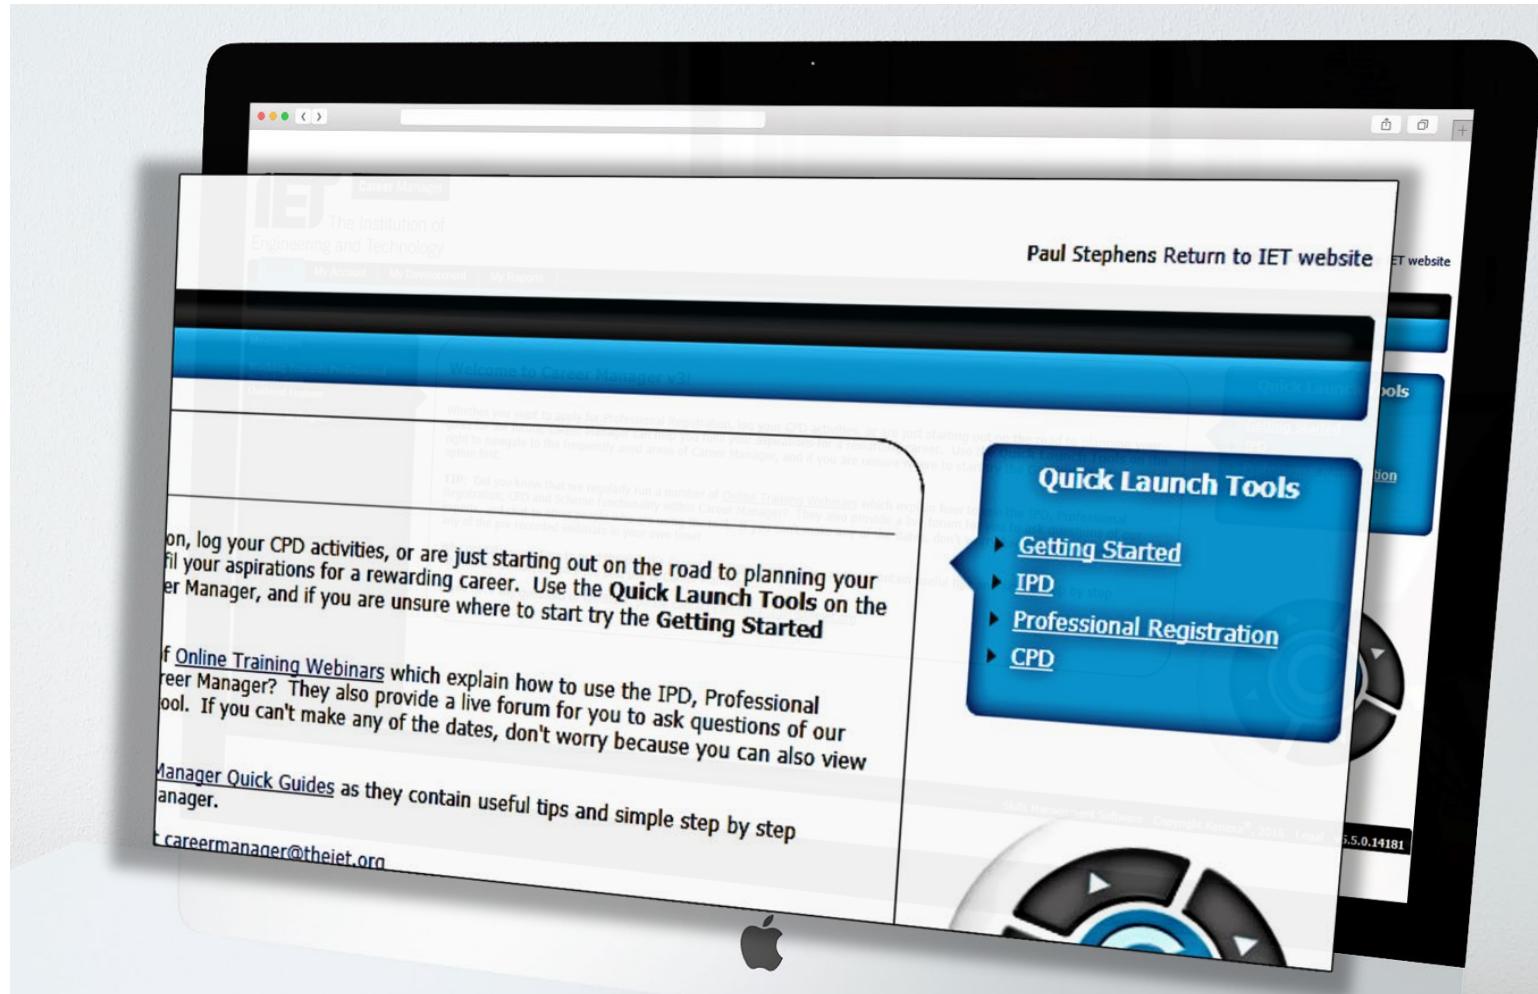

Secure

Our servers meet stringent security requirements.

Backed up

No more misplacing that file or paper copy.

Application & Support

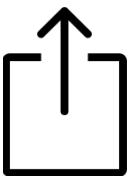

Initial Professional Development (IPD)

Continually assesses your competence in readiness for applying for professional registration using Career Manager.

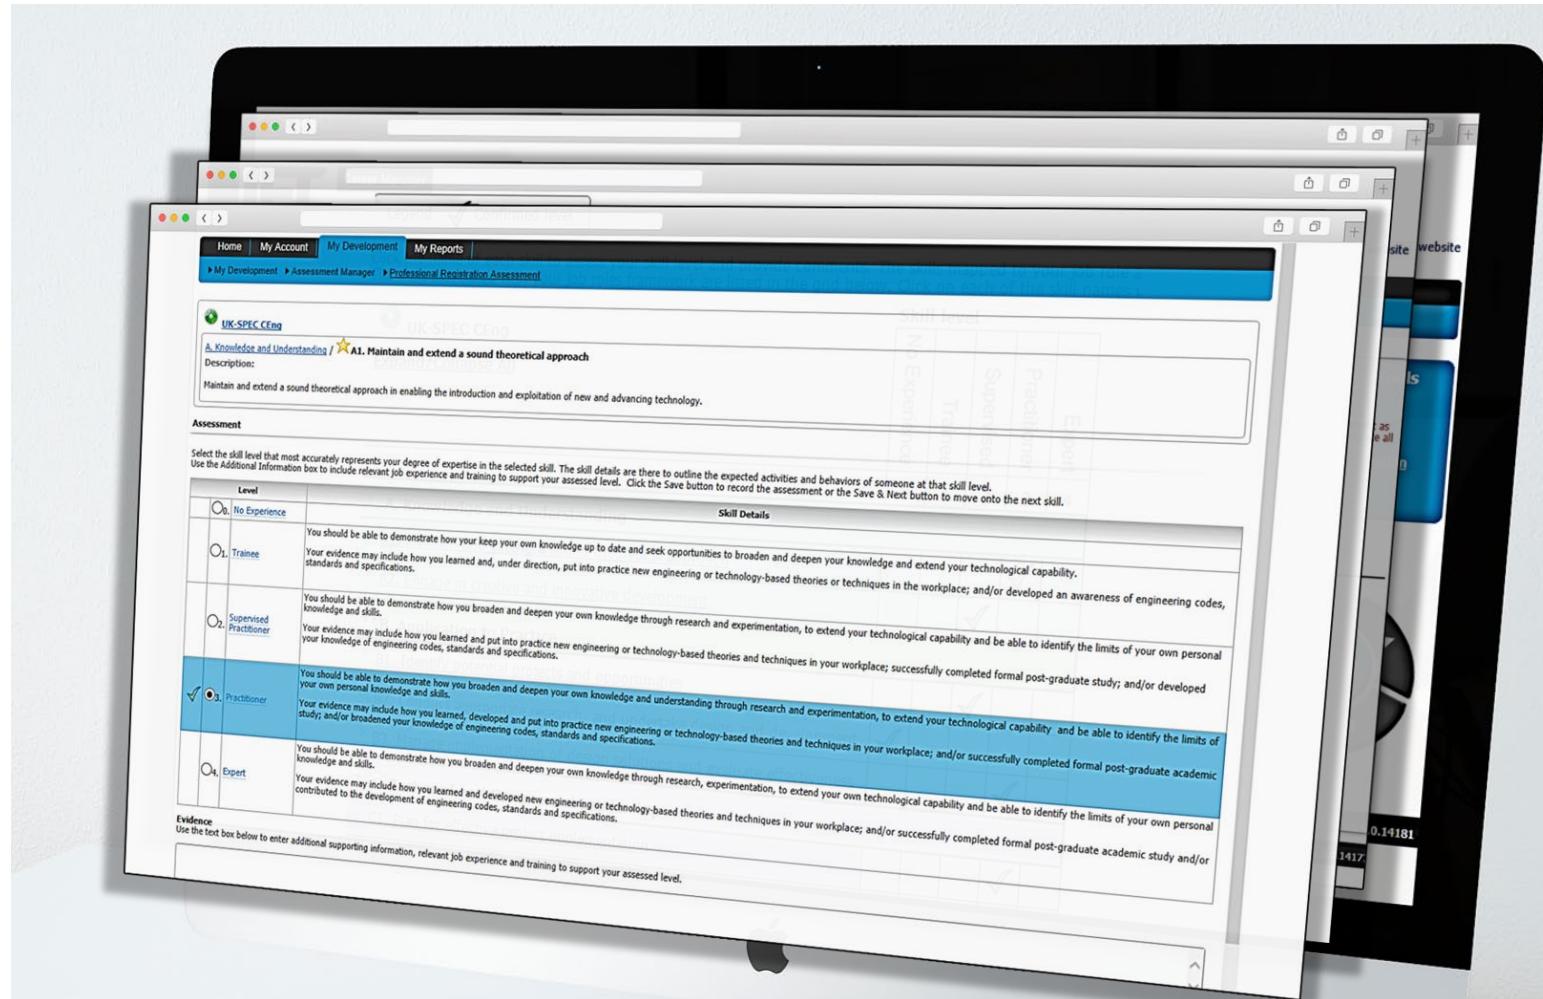

Gap analysis

Identify development areas against the UK-SPEC.

Share

Get feedback from your line managers or mentor on your progress.

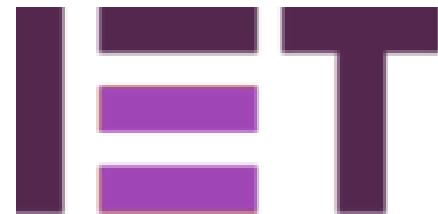

When you are ready to apply for professional registration, it's important to get help before applying.

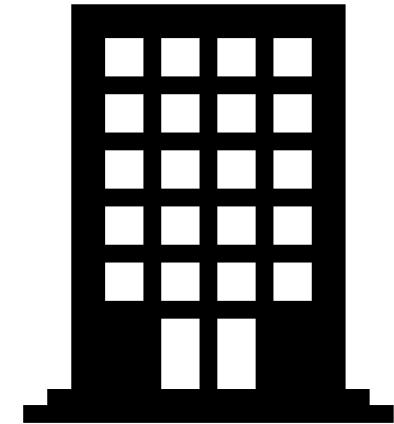

Online

Standard/Individual Route

Apply Online using Career Manager

Create your application form, upload supporting documents and submit to the IET for assessment using Career Manager.

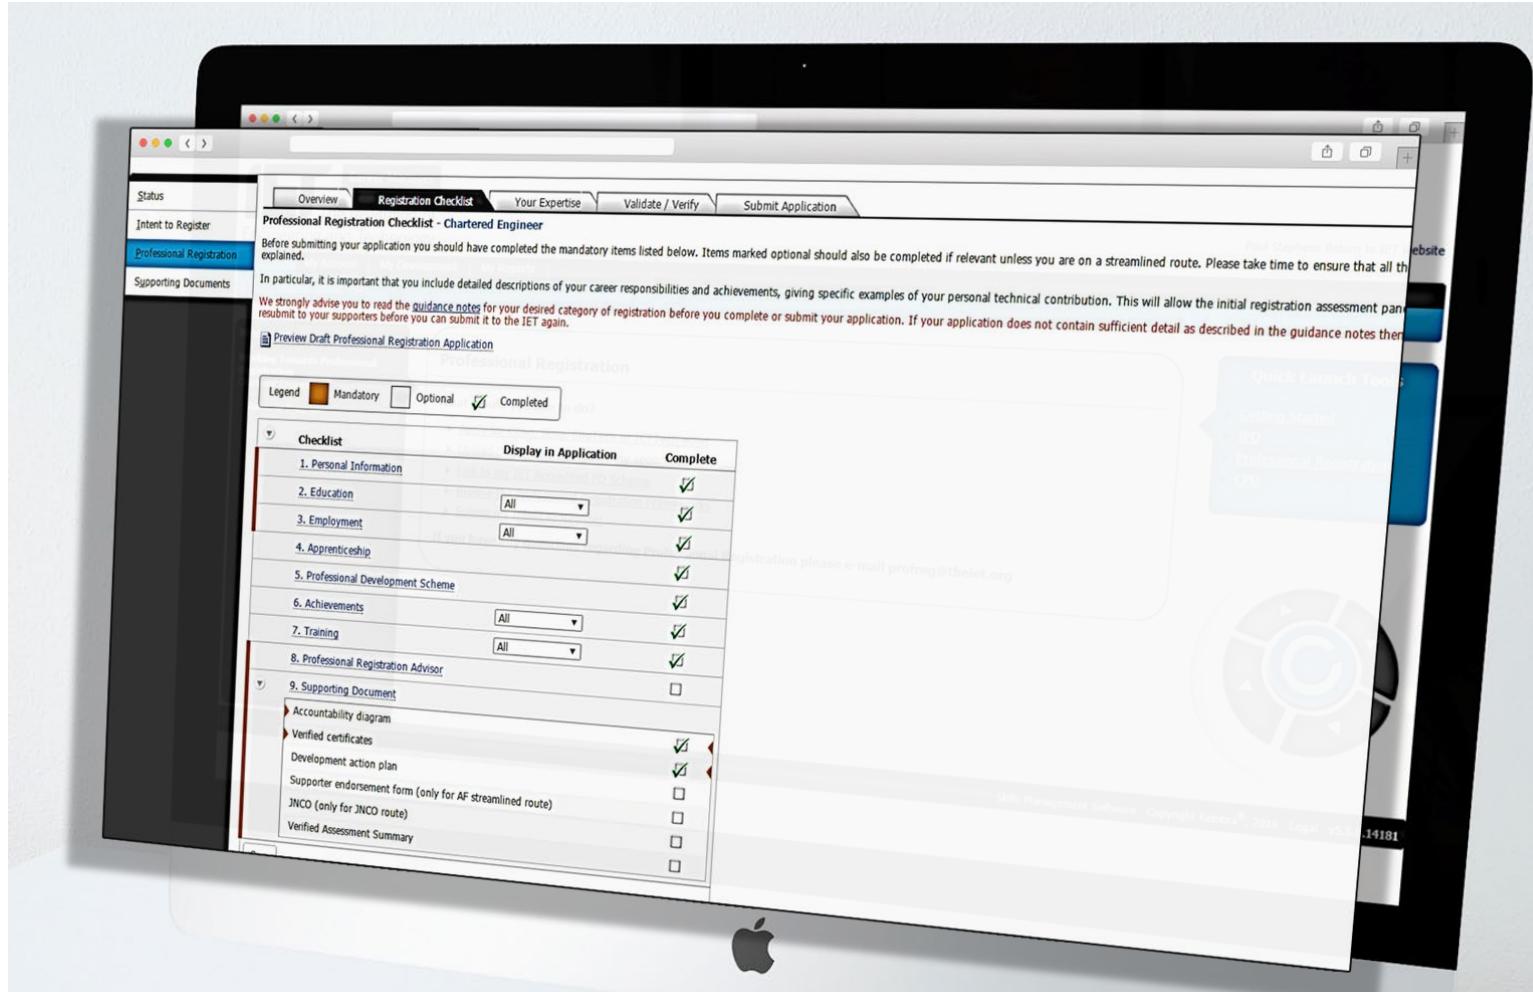

Guidance notes

It's important to read these before starting.

Support

Contact the IET Professional Registration department if you need any support.

Application & Support

Supporters

These are individuals, who verify the information you include in your application providing you with a reference

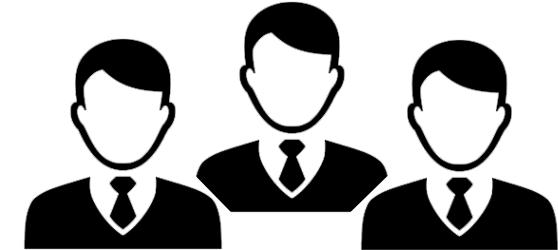

Mandatory

Knows you professionally, working at a senior level to you and with direct knowledge of your role and responsibilities

Preferred

A supporter who is Engineering Council or international equivalent registered engineer, who is a Member or Fellow of the IET or another Professional Engineering Institute (PEI).

Optional

A second and third supporter is optional e.g. contractors/frequent job moves to enable adequately verified periods for your employment.

Defence Engineer Registration Scheme (DERS)

- Dependent on meeting eligibility criteria
- Streamlined application form and assessment process
- Endorsement via relevant HQ required

1

- Check eligibility criteria
- Download application form

2

- Complete application form
- Obtain endorsement from approved endorser

3

- Submit application, including endorsement, to the IET for assessment
- IET Assessment (inc. PRI for CEng/IEng)

Defence Engineer Registration Scheme

Application Form

Defence Engineer Registration Scheme For Engineers, Technologists and Technicians Professional Registration Application Form Part 1

A Registration Scheme

Please indicate below which Defence Engineer Registration Scheme you are applying under:

- RAF
- RQMC
- RNWE
- RNAE
- RMME
- R SIGNALS
- RE
- DSE&T
- DSTL

B Registration

Please indicate below which category of registration you wish to apply for:

- IET Technician (TechTec)
- Engineering Technician (EngTech)
- Incorporated Engineer (IEng)
- Chartered Engineer (CEng)

C Membership

You must become a member of the IET before [submitting an application](#) for professional registration.

You can apply to become a member by calling +44 (0)1455 702548 or visiting www.theiet.org/join/obtain-membership

Please provide your membership number in the space provided below:

Membership Number:

Defence Engineer Registration Scheme For Engineers, Technologists and Technicians Professional Registration Application Form Part 1

F(a) Formal Education

In this section you should provide details of all academic or educational qualifications (e.g. BEng, MEng, MSc, TINC, IMO, City & Guilds etc.); any formally assessed work-based learning (e.g. NVQs).

Start Date	End Date	Course Qualification Title	Educational Establishments	Classification	F-1000 Distance Learning

F(b) Military or Job-Specific Education/Training

In this section you should provide details of all relevant military or job-specific courses, training, qualifications and awards.

Start Date	End Date	Course/Training	Location	Outcome/Passed

G Career History

Summarise your employment history, in chronological order starting with your earliest post and include your main responsibilities and achievements in that role.

Please provide details of your work experience, try to identify instances that show how your experience demonstrates achievement of the registration competencies, especially focusing on your personal achievement. Please read 'About this form' at the end of this application for further guidance.

Start Date Date	End Date Date	Job/Job Role/Previous Experience

Defence Engineer Registration Scheme For Engineers, Technologists and Technicians Professional Registration Application Form Part 1

H Declaration

I understand and consent to the information provided on this form being processed by the IET for its sole use and that of its associated organisations, including the Engineering Council for registration purposes, as well as my Local Network, for the purpose of processing, delivering and improving my experience of the IET and its products and services or such other purposes as are described in the IET Privacy Statement. If either now or in the future I am based outside the European Economic Area (the 'EEA'), my information may be transmitted outside the EEA (for example to my Local Network or IET Central Office) to enable me to benefit from IET opportunities overseas or, where required, to enable the IET to meet any legal or other regulatory obligations in that country. The benefits of IET membership can enjoyed by our members globally. However, if you do not wish to receive all the benefits of IET products and services which may be of interest and benefit to you (by post or electronic means) please tick this box.

I declare that the statements made on this form are to the best of my knowledge true. I agree to comply with the Royal Charter and Bye-Laws and Rules of Conduct of the Institution of Engineering and Technology (IET) and understand that this is a commitment to behave ethically within my profession. I will do my best to promote the interests of the IET. I confirm that I have not committed any offence of which the IET would require me to give notice under its Rules of Conduct. The Rules of Conduct and the Royal Charter and Bye-Laws are published on the website www.theiet.org/charter

The information on this form (excluding payment details) may be shared with your branch of the Armed Forces or Defence Services.

Registration on Local Network: Local

Your application must now be sent to your relevant DCRG Scheme Co-ordinator for endorsement to complete the actions below. For additional information or details, please visit www.theiet.org/obtain-locally

Please note that your application may be returned to you for further information or additional supporting evidence if it is considered that you have not provided sufficient details or evidence relevant to registration.

Application & Support

Membership and Professional Registration Fees

CEng

IEng

EngTech

ICTTech

Once you're professionally registered, the next time your membership is due for renewal you are required to pay the annual IET qualified and registered member fee (this rate includes the standard IET membership fee) in addition to the Engineering Council annual registration fee

CEng
£53.20

IEng
£44.90

EngTech/ICTTech
£18.40

You'll be assessed against your chosen professional registration category and, if successful, an Engineering Council entrance fee is collected by the IET on their behalf

CEng/IEng
£210 via Career Manager**
£275 via paper application**

Apply online using Career Manager and pay the professional registration application fee

EngTech/ICTTech
£45 via Career Manager**
£60 via paper application**

Associate/MIET/TMIET Membership
£170

We recommend that individuals about to apply for professional registration apply for associate membership*

Step Two
Professional Registration Application Fee

Step One
Join the IET

Step Three
Engineering Council entrance fee

2020 registered members fees

Members

Registration Category	IET Qualified and Registered Membership Fee	Engineering Council Annual Registration Fee	Total Amount
CEng	£208	£40.90	£248.90
IEng	£208	£34.70	£242.70
EngTech	£186	£19.90	£205.90
ICTTech	£186	£19.90	£205.90

Fellows

Registration Category	IET Qualified and Registered Membership Fee	Engineering Council Annual Registration Fee	Total Amount
CEng	£235	£39.90	£274.90
IEng	£235	£33.80	£268.80
EngTech	£213	£19.40	£232.40
ICTTech	£213	£19.40	£232.40

Technicians and Engineers that are within the early stages of their career may qualify for IET Advantage or IET Signature reduced membership subscriptions.

*The price for associate membership is the same as TMIET or MIET, however the processing time is shorter and it ensures professional registration candidates do not submit the same information for both membership and registration processes. Associate members of the IET who become professionally registered have their membership upgraded automatically free of charge to the appropriate membership category. Associates achieving EngTech or ICTTech will be upgraded to TMIET, those achieving IEng or CEng will be upgraded to MIET. **Applications through Career Manager benefit from a discounted rate. Please ask a member of the IET staff for the standard paper application fee.

Refund of Engineering Professional Body Fees

2019DIN07-069

Can claim

Cannot claim

Membership Fee

Associate/MIET*

Company Based Registration Support

IET Company Based Registration Support at MOD Corsham

Are you an Engineer or Technician, but haven't got round to applying for professional registration yet?

The Institution of Engineering and Technology (IET) is running a scheme at DE&S Abbey Wood where a **Professional Registration Advisor** (PRA) will be able to help you start or progress with your Engineering Council professional registration application to become a **Chartered Engineer (CEng)** or **Incorporated Engineer (IEng)**.

Scheme Dates

25 Feb 20	Scheme launch presentation
02 Apr 20	First draft application review with PRA
23 Apr 20	Second draft application review with PRA
04 Jun 20	Final draft application review with PRA
TBC	Submission deadline

*dates are subject to PRA availability. Exact dates will be confirmed via email following sign up.

To **sign up** to this scheme and get onsite 1:2:1 support with your application, please visit:
