Computing

Big Data and Software Defined Networks

Editor: Javid Taheri, Karlstad University, Sweden

This book provides crucial information on state-of-the-art advancements and architectures of Big Data and Software Defined Networking (SDN), and highlights general open issues in these innovating and growing fields. It explains how SDN can help Big Data applications run more efficiently and shows how Big Data analytics can be used to make better resource allocation decisions, and run smoother networks in Cloud data centres. A timely resource for researchers, developers and practitioners developing and implementing cloud-based solutions.

Big Data-Enabled Internet of Things

Editors: Muhammad Usman Shahid Khan et al., COMSATS Institute of Information Technology, Pakistan

Written by a team of leading international researchers, this volume presents the state-of-the-art research taking place at the interface of Big Data and the Internet of Things (IoT). With a focus on the analytical techniques needed to handle the huge data-processing requirements, the book discusses Big Data analytics, selflearning algorithms, recommendation systems, indexing techniques, semantic analysis and much more. This volume is an invaluable resource for a wide audience of computing researchers, practitioners, engineers and information technology professionals working in this highly dynamic field.

Big Data Recommender Systems

Volume 1: Algorithms, Architectures, Big Data, Security and Trust

Volume 2: Application Paradigms

Editors: Osman Khalid, COMSATS Institute of Information Technology, Pakistan; Samee U. Khan, North Dakota State University, USA; Albert Y. Zomaya, University of Sydney, Australia

Recommender systems apply knowledge discovery techniques on users' data to suggest information, products, and services that best match their preferences. Divided into two volumes, this comprehensive set covers recent advances, challenges, novel solutions, and applications in big data recommender systems. Volume 1 contains 14 chapters addressing foundations, algorithms and architectures, approaches for big data, and trust and security measures. Volume 2 covers a broad range of application paradigms for recommender systems over 22 chapters.

Data as Infrastructure for Smart Cities

Authors: Larissa Romualdo Suzuki & Anthony C.W. Finkelstein, University College London, UK

The authors present a comprehensive framework of techniques for smart city data infrastructure design. Providing tools to enable processes with innovative use of technology and data, coupled with governance strategies, the book shows how to improve the quality of cross-domain city service management, and the decision making process. The framework has guided the design of several urban platforms in the European Union and the design of the City Data Strategy of the Mayor of London, UK.

Handbook of Mathematical Models for Languages and Computation

Authors: Alexander Meduna, Brno University of Technology, Czech Republic; Petr Horáček, BioVendor - Laboratorní medicína a.s., Czech Republic; Martin Tomko, Brno University of Technology, Czech Republic

This handbook introduces a variety of concepts in discrete mathematics and mathematical modeling for languages and computation. The authors pay special attention to the implementation of mathematical concepts to explain clearly how to encode them in computational practice. All computer programs are written in C#. At the end of each chapter, a set of exercises is given to reinforce and augment the material covered.

Many-Core Computing: Hardware and software

Editors: Bashir M. Al-Hashimi & Geoff Merrett, University of Southampton, UK

Covering the thriving field of many-core computing, this book starts by discussing languages, operating systems and compilers, then examines algorithms and methods, before expanding on many aspects of architecture. It features a large section on applications covering autonomous systems, cloud computing, high performance computing and Big Data, as well as future research directions. Each chapter presents background information covering basic principles, and an extensive, up-to-date list of references. Ideal for researchers in electrical and electronic engineering and computer science, as well as graduate students and lecturers in the field.

Modeling and Simulation of Complex Communication Networks

Editor: Muaz A. Niazi, COMSATS Institute of Information Technology, Pakistan

The inherent complexity of modern interconnected communication and information network systems creates a need for researchers and engineers to create and develop realistic models to analyze and predict outcomes and scenarios. Covering modeling paradigms and approaches as well as surveys and case studies, this edited book covers important topics and approaches for the Internet of Things (IoT) and Big Data networks from a complex adaptive systems perspective.

Security and Privacy for Big Data, Cloud Computing and Applications

Editors: Lizhe Wang et al., Chinese Academy of Science, Institute of Remote Sensing and Digital Earth, China

This is a comprehensive view on how to advance security in big data, cloud computing and financial technologies. It gives unprecedented insights into recent advances, and explains how to make the technology more secure and fit for purpose. Topics covered include data security and network security; big data security; cloud computing with more secure frameworks; and blockchain technology and security for digital currency. Ideal for researchers and practitioners working in information security and data science, as well as IT professionals in the financial industry.

Computing - Highlights

SysML for Systems Engineering: A model-based approach

3rd Edition

Authors: Jon Holt & Simon Perry,
Scarecrow Consultants, UK

Now with several new chapters, this third edition of the popular guide to SysML for systems engineering has been fully aligned with the latest version of the standard SysML 1.4. It includes updates on the core modelling notation, standards models, benefits of MBSE, model management, model maturity and value chain modelling. The book also describes how to implement SysML and MBSE in an organisation, and how to model real projects effectively. An extensive case study makes the book invaluable for practising systems engineers.

Ultrascall Computing Systems

Editors: Jesus Carretero et al.,
University Carlos III of Madrid,
Spain

This title presents important results and methods geared towards achieving sustainable ultrascall computing systems. The book covers state-of-the-art technologies and methodologies to address the huge computer processing requirements of big data and the Internet of Things. Incorporating important results from the COST Action IC 1305 Network for Sustainable Ultrascall Computing (NESUS), this book presents a wide range of emerging programming models that facilitate the task of scaling and extracting performance on continuously evolving platforms, while providing resilience and fault-tolerant mechanisms.

About our eBook Collections

The ultimate reference collections of highly specialised engineering and technology content.

Renowned as a premier international publisher, the IET offers a unique range of high quality eBook Collections, which support our commitment to advancing knowledge across the global engineering and technology community.

Available exclusively on the IET Digital Library, IET eBook Collections offer an acclaimed listing of academic and practitioner focused titles from 1979 to 2019, covering a wide range of subject areas including control, telecommunications, energy engineering, computing and radar.

IET Ultimate eBook Collection (1979-2019)

If you are looking for the definitive collection of world-class engineering and technology research for your users, the IET Ultimate eBook Collection is the ideal choice.

With content dating back to 1979, the Ultimate eBook Collection offers access to over 500 highly specialised engineering and technology publications.

Spanning across 40 years of cutting-edge research, this extensive portfolio of academically focused and practitioner titles from both the IET and SciTech, covers a wide range of subject areas including; control, telecommunications, radar, electromagnetic waves, renewable energy and computing.

IET eBook Subject Collections (1979-2019)

In addition to the Ultimate eBook Collection and backlist purchasing options, IET eBooks are also available in a range of 10 convenient subject specific collections which offer focus to a particular topic and allow your users to access content in their field more easily.

Choose from any of the IET eBook Subject Collections that are featured in this catalogue including:

- Computing
- Control, Robotics & Sensors
- Electromagnetic Waves
- Energy Engineering
- Healthcare Technologies
- Materials, Circuits & Devices
- Radar, Sonar & Navigation
- Security
- Telecommunications
- Transportation

How can an IET eBook Collection help your users and add value to your library?

An IET eBook Collection offers you a simple solution to meet your users' requirements for instant access to quality research and add extra value to your library's existing digital offering.

Help your users:

– Locate relevant information quickly and easily

Via the IET Digital Library, offer your users the opportunity to access research at the click of a button. Using the online search facility, users are able to search by title, keyword, author name or date.

– Download content without restrictions

All IET eBook Collections are available DRM-free, allowing multiple users to download eBooks by chapter or full text with unrestricted access.

– Share content with colleagues

Users have the freedom to view, print and save content on a range of devices and also share abstracts with colleagues.

– Easily manage citations

IET eBook Collections are compatible with EndNote, BibTex, Plain Text and RefWorks allowing for citations to be downloaded; ideal if your users need to link references.

Add value to your library:

Perpetual access to content

Providing you with the added security of on-going digital access without subscriptions, and the option to add on the new frontlist each year.

A variety of purchasing options

Depending on your requirements, you can choose from 12 different eBook Collections, all available on a perpetual access basis.

Enhanced discoverability

FREE MARC21 records offer enhanced discoverability for your users to locate content whenever they need to and with DOIs to chapter level.

Reporting tools to monitor usage

COUNTER4-compliant usage statistics allow you to measure online usage and the SUSHI protocol can help you to streamline your reporting processes.

Secure archiving with CLOCKSS

By partnering with CLOCKSS, IET eBook Collections offer the added guarantee that our digital content will be available now and in the future.

IET Books can be purchased in a variety of collections to suit your library requirements, whether you are looking for access to the entire portfolio or a specific collection tailored by year or subject.

IET eBook Collections	Titles
IET Ultimate ebook Collection (1979 – 2019)	612
IET 6 Year Collection (2015 – 2020)	277
IET 5 Year Backlist (2015 – 2019)	202
IET Frontlist Top-Up (2020)	75

Please note: The number of titles available in the 'IET Frontlist Top-Up (2020)' is a preliminary listing. Due to the nature of publishing, the number of titles expected to publish in 2020 may vary.

The number of titles in each collection is subject to change without notice.

Please contact your local IET representative for further information and pricing.

HOW TO ORDER

Librarians and Individuals

Place your order for print or eBooks from the IET:

Online:

Print books: www.theiet.org/books

eBooks: www.ietdl.org/ebooks

Or contact customer service:

Email: sales@theiet.org

Phone: +44 (0)1438 767328

Fax: +44 (0)1438 767375

Post: The Institution of Engineering and Technology, PO Box 96,
Stevenage SG1 2SD, UK

See www.theiet.org/books for a list of regional stockists.

Member Discounts

IET members are entitled to a 35% discount on the first copy ordered of any book and need to quote their membership number when ordering.* If more than one copy of a title is ordered then the discount will be applied to the first copy only. Books purchased with a member discount should be for personal use only and should not be resold. Individuals purchasing an e-book collection will not be entitled to a discount.

Customer Service

If you have a question about your order, invoice or payment, or if you have a general enquiry about any of our publications, please call our customer service team on +44 (0)1438 767328 or email sales@theiet.org.

*Please note, the member discount set out above cannot be used in conjunction with any other discounts or promotions offered by the IET from time to time. Any discount/promotion codes used will be void and the member discount will take precedence.

ONIX 3.0 FEEDS

Metadata for all IET books is available from the IET via an ONIX 3.0 feed. This ONIX feed enables trade customers to receive current and up-to-date information about IET Books in an efficient and seamless way. To sign up to receive ONIX 3.0 feeds direct from the IET, please contact sales@theiet.org.

Payment

We accept MasterCard, American Express, Visa, JCB, Solo and Maestro. Please include the expiry date (and issue number and start date when it is valid for Maestro), signature and daytime telephone number. Please do not submit a PDF order form by email if it contains credit card information. The IET takes the security of your personal details very seriously and will not process email transactions. Cheques should be made payable to 'The Institution of Engineering and Technology'. In the UK only, please add VAT at the current rate to all software and electronic product orders. EU customers outside the UK: please state your company's registered VAT number. If you would like to open an account, please call +44 (0)1438 767328 or email us at sales@theiet.org for a credit application form.

Delivery

- **UK:** Free of charge
- **Europe & Rest of the world:** £4.95 per book

Overseas books will be sent via airmail. We are happy to offer express delivery/courier options: please call +44 (0)1438 767328 or email sales@theiet.org for rates. Please allow 2–5 days for UK delivery and approximately 4 weeks for overseas. Orders placed before 12 noon can be delivered the next day in the UK for an additional charge: please contact us for prices.

IET Terms and Conditions

Consumers

Returns should be received by our Warehouse within 30 days from date of purchase and must be returned in a resaleable condition in order to receive a refund. Imperfect or damaged copies will be replaced. No refunds will be given for electronic products which have been downloaded.

Trade Customers

The IET operates on a sale or return basis. Returns can be made up to 10 months after the invoice date; returns received after this time will not be acknowledged or credited. Books must be returned in a resaleable condition in order to receive a credit note. Damaged returns will be destroyed and no credit note will be issued. Imperfect or damaged copies will be replaced and the customer will only be required to return the book jacket or send in photographic evidence in these cases.

All prices, rates and publication dates are subject to change without notice. Check the website or contact the sales team for the most up-to-date information and prices.

VERIFIED WIRING REGULATIONS RE-SELLERS

To ensure that you are buying a genuine copy of any of our titles, you can purchase directly from the IET at www.theiet.org/wiringbooks or from one of our preferred suppliers, including:

- **Amazon.co.uk** – (Please note the IET can only verify books sold directly by amazon.co.uk, not any amazon market place seller) - <http://www.amazon.co.uk>
- **Your Scheme Provider** (Certsure, NAPIT, BSI)
- **Blackwells Bookshops** – <http://bookshop.blackwell.co.uk>
- **Waterstones Bookshops** - <http://www.waterstones.com>
- **Professional Bookshops** - <http://www.wiringregulations.net>

- **RS Components** - <http://uk.rs-online.com>
- **City Electrical Factors** - <http://www.cef.co.uk>
- **Denmans Electrical Wholesalers** - <http://www.denmans.co.uk>
- **Newey & Eyre** - <http://www.neweysonline.co.uk>
- **The Book Depository** - <http://www.bookdepository.co.uk>
- **Wordery.com** - <https://wordery.com>

If you are a librarian, preferred library suppliers are:

- **Dawsons Books** - <http://www.dawsonbooks.co.uk>
- **Coutts Information Services** - <http://www.ingramcontent.com>

For the booktrade we can verify stock from these wholesalers:

- **Bertram Books** – <https://www.bertrams.com>
- **Gardners Books** – <https://www.gardners.com>

IET Journals

We work in partnership with leading institutions, societies and organisations to deliver an Open Access Journal programme as part of our commitment to support the global scientific and research community.

Our Internationally renowned top-ranking publications include: *IET Renewable Power Generation: IET Generation, Transmission & Distribution; High Voltage; and IET Control, Theory & Applications*, as well as our long-standing journal *Electronics Letters*.

Access the latest research via IET Journals Packages

- Designed to offer you greater value and flexibility in accessing IET content.
- All 2020 packages include an online version of the journal enabling multi-user access at no additional cost.
- Save 20% on the list price for individual titles.

**Contact us to set up a FREE ONLINE TRIAL
via the IET Digital Library**
