IET Communities Event Metrics

This report shows cumulative metrics figures for community events that have been reported since the start of the 2020 session. Attendance or participation figures for each community activity are an essential metric used to measure success and prove the value of community activity in terms of helping the IET fulfil its charitable remit. Participation figures from community activities are one of the key pieces of evidence used when allocating funding to communities. If you have any questions please contact Communities Support on communities-support@theiet.org

2020 session delegate metrics by region as at end of March 2020
