

Scholarships and bursaries

The Diamond Jubilee Scholarships and Engineering Horizons Bursaries specifically help students and apprentices in their studies and work by offering financial support to those who really need it. Whether you're a new student or apprentice or already part way through your degree or apprenticeship taking on that next challenge, our funding can make a difference.*

Since 2013 we've seen some incredible things happen for young engineers through being supported by these schemes, so take a look at the latest snapshot of our 2020 alumni survey with more than 500 responses; it shows just how passionate we are about encouraging young people into engineering.

71%

of graduates are employed in an engineering or technology role.

14%

of graduates are undertaking postgraduate study in an engineering or technology subject.

The awards started in 2013 with the Diamond scholarship.

Since then we've made

1,462 awards.

658 recipients have graduated since 2016.

Receiving the scholarship was a huge surprise and one that will help me throughout my degree. It will help make ends meet, allowing me to focus more on my studies, as well as providing a fund to dip into for passion projects. As for advice for prospective applicants, make sure you apply! I nearly didn't!

236

graduates are still members of the IET.

228

graduates are working towards becoming Professionally Registered.

This scholarship is a great achievement for me, opening up a window of opportunities, while providing me with financial aid during my course. To prospective applicants I would stress that it's worth applying for, I was unsure about whether to and I am happy I did.

Of our 2020 graduates...

78

passed with an MEng.

27

passed with a BEng.

10

passed their apprenticeship.

*Funding available only for students and apprentices on IET accredited degree courses or schemes.
